

Store Surveillance Detection is Enhanced at Every Angle

Mirrors & Domes

Accessories that Raise Awareness, Deter Shoplifters and Increase Employee Productivity

See what's really going on in your store with Protex Mirrors & Domes. An integral part of loss prevention, mirrors enable employees to detect suspicious behavior and help eliminate blind spots where merchandise can be concealed. Our convex mirrors are now lighter and made with a plastic backing with an UV inhibitor, making them suitable for both indoor and outdoor use.

When used alone or in conjunction with a CCTV system, the Smoked Dome discourages thieves when they presume a hidden camera is monitoring their activity. Protex Mirrors & Domes are offered with four types of brackets for easy set up in any display setting. Used with our flashing LED accessory, a smoked dome appears to contain a security camera which can further deter a potential thief.

Features

- Unobtrusive design
- Comes in a variety of shapes to satisfy your unique store layout
- Available in standard ceiling tile formats
- Offered with different brackets to increase display options

Advantages

- Easy installation
- Expands coverage area in or outside of your store
- Conspicuous placement deters thieves
- Increases employee performance
- Cost-effective Loss Prevention solution
